

Gerardo Palmieri Mondragon

Professional profile

Prepared to use my skills and passion to further a company's mission. I offer experience with programming platforms such as Javascript, PHP and some of their frameworks, also data bases like MySQL and MongoDB and knowledge in Linux since it is my main operating system.

I bring a positive attitude and the will and motivation to learn new skills so i want to continue learning the use of the various technologies that exist within web development and other programming applications.

I spent the last two years developing my code skills and acknowledge theory from zero all by my own, well, with internet material of course and along with school, i realize that i can handle several tasks and managing my time in an efficient way.
